EXPERIENCE

Frontend Web Developer & Designer

Vadodara Fire & Emergency Services

📅 03/2023 - 07/2023 📍 Vadodara India

I design in **Figma**, write corresponding code, and integrate new modules into existing projects after understanding client needs. I also update existing designs to match new modules. Developed some new modules in **React.js** and some in Core **HTML5, CSS**

Social Media Handler & Designer

TECHPRIME

📅 12/2020 - 06/2023 📍 Vadodara India

Together, my friend and I founded TechPrime. Our modest attempt to obtain **client-working experience**. Work for ilikefitnessgym, Evolution The Gym, Velo Masters, Sahajanand Classes.

📅 2018 - 2021

CGPA
9.80 / 10

S. S. C (10th Standard)

Bright School

📅 2018

Percentage
70.7 / 100

PROJECTS

SendBit

📅 09/2022 - 12/2022

🌐 <https://sendbit-ch.glitch.me/>

Proficiently developed a single-page website using **HTML5, CSS3, and JavaScript**, with a focus on front-end development to enhance user-friendliness and troubleshooted loading issues on page transition.

SmartNote

📅 05/2023 - 06/2023

🌐 <https://ghanshyam7373.github.io/smartnote/>

SmartNote is a secure cloud-based notetaking website developed using the **MERN Stack**. It provides users with a convenient platform to create, store, and access personal, general, and important notes securely

Sentiverse

📅 11/2022

🌐 <https://sentiverse.netlify.app/>

Sentiverse, a potent sentiment analysis tool that precisely evaluates sentiments, using **React.js** and **CSS3**. A text sample was examined using **API** integration to produce interesting sentiment analysis results.

HandyTrainer

📅 12/2022

🌐 <https://handytrainer.netlify.app/>

Utilising **HTML5, CSS3, and JavaScript**, I developed an engaging website that encourages visitors to exercise easily by offering features like BMI calculation and producing nutritional meals using **API integration**.

Marvel Knowledge

📅 06/2022 - 07/2022

🌐 https://ghanshyam7373.github.io/Marvel_Knowledge/index.html

The Marvel Cinematic Universe's characters, comics, and creators are all available on the website known as Marvel Knowledge. Additionally, it offers filters for the searching function. Marvel **API** was used to develop this website.
